

SIGGART DESIGN CONTEST

WHAT'S YOUR ECO-STYLE?

SIGG Switzerland could produce your design

Beginning on Earth Day (April 22) and continuing through June 1, SIGG Switzerland will be running a contest to design the next SIGG water bottle. Because SIGG bottles are environmentally friendly - reusable and 100% recyclable - we'd like to give people a chance to design a SIGG bottle that represents their eco-outlook on life. The contest will be hosted at www.MySIGG.com/SIGGART. Entry is free and open to U.S. residents.

How to enter

You can enter the contest by visiting the site and downloading our bottle template. Then, just email us your completed design for voting. All visitors to the site can view submitted designs and vote on their favorite entries. (You can too!) The top ten vote-getters will be finalists and judged by our judging panel. Finalists will be judged on eco-sensibility, overall aesthetics and style.

Free SIGG bottles for the winner

The winner's bottle will be produced by SIGG in time for this year's holiday season and sold exclusively at Patagonia and on www.MySIGG.com. The winner will also receive 100 bottles with his or her design to share with friends and colleagues. A percentage of sales from the winning bottle will be donated to The Surfrider Foundation, a not-for-profit organization committed to protecting our oceans and beaches. Full rules are available at www.MySIGG.com/SIGGART.
